1 Proud Regal - "Come To Me"

If something isn't working in your "Wavebox Singing, check these things in order:

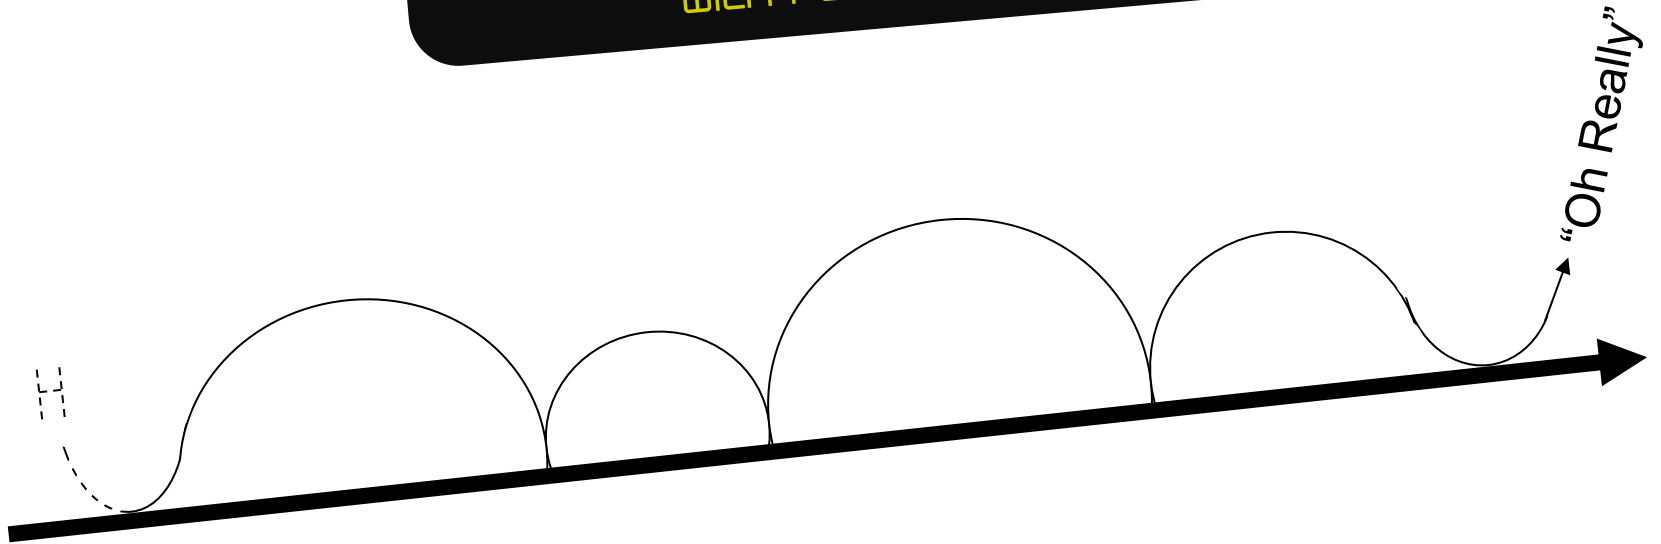

1. "Come to me" (Think proud regal)
2. Wall of Sound (Constant vocalization)
3. Semicircle Singing (Only touch the line, blossom, give purpose and destination)
4. Cursive Endings (It's not a volume thing, it's simply allowing the endings to be special)
5. "Oh Really" breaths (Think "silent 360° breath" at the end of the phrase and pear in the mouth)
6. Silent "H" (Start every phrase thinking silent "H")
7. General Dynamics (Enter the phrase smoothly ... finish the phrase – repeat)

You are now ready to go back to using your Wavebox. Notice the difference and Enjoy!
